# Download the RX2 App today!

RX2 is a web based app, which means there's no download required! Users just go to the PersonalRX website to login.

Since you can't download RX2 from the app store, here are the instructions to add the RX2 app to the home screen on your phone so you can access it easily!

Depending if you have an iPhone or an Android, downloading the app will be slightly different. So please follow the appropriate instructions below.
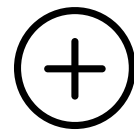

iPhone
